COMPANY PROFILE · 2026

ABEYLIONS

Ignite your imagination

LEGAL NAME	COMPANY NUMBER	BASED IN
Abeylions (Private) Limited	PV 00280696	Sri Lanka, with a presence in Dubai

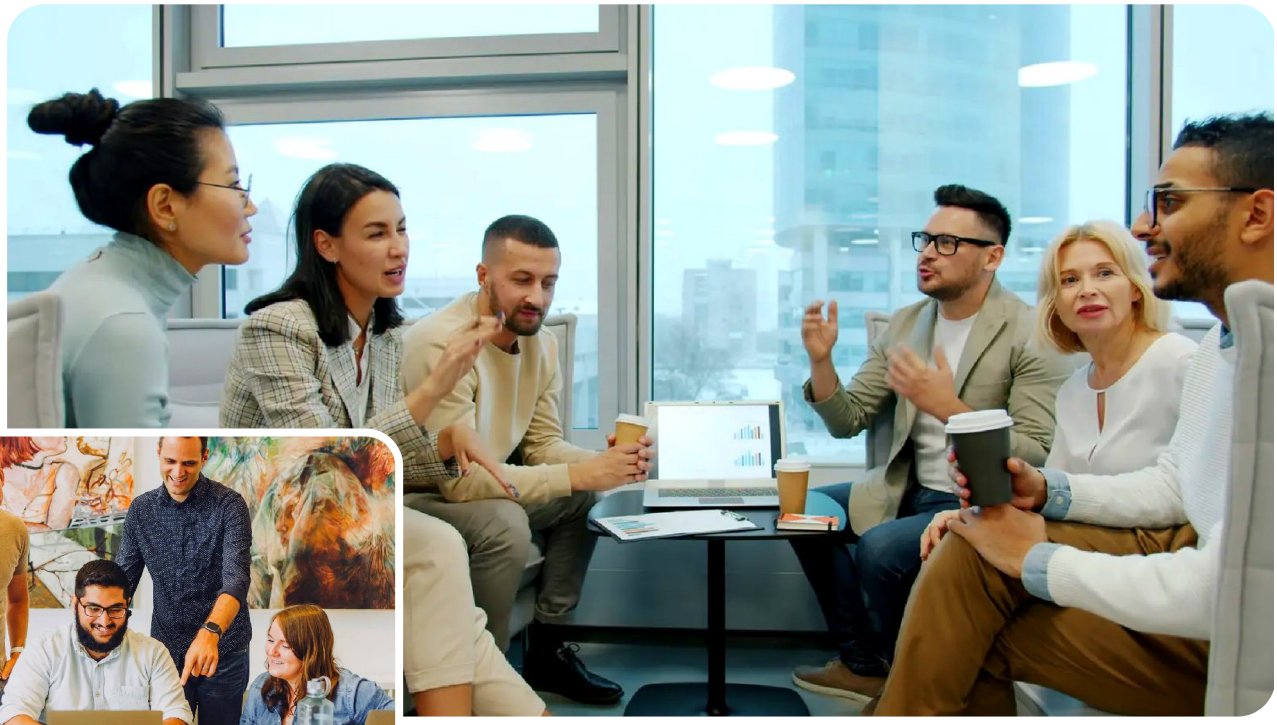
WHO WE ARE

Technology that makes business easier.

ABEYLIONS is a software company based in Sri Lanka. We build, connect and run the software businesses depend on, so their teams can get on with the work that matters.

We work with businesses in marine services, real estate, travel, investment and more, in Sri Lanka, the Gulf and beyond. Some start with a system that is ready to use. Some ask us to connect the tools they already have. Others need something built around the way they work. Most use a mix of all three.

Whatever the project, the approach is the same: listen first, explain plainly, build carefully and stay for the long term.



AT A GLANCE

The facts.

Colombo, Sri Lanka

WHAT WE DO

Nine ways we make the working day easier.

01

Lead capture and CRM

Enquiries from WhatsApp, Facebook, Instagram, Telegram and your website arrive in one place, already sorted.

02

Dialers and call centre tools

Call from the screen you already work in. The next call is lined up before you hang up.

03

Chatbots and AI agents

Chatbots and AI agents reply from your own knowledge, and hand over to a person when it matters.

04

Support tickets and help centre

A help centre for quick answers, and tickets that never get lost for everything else.

05

Operations and ERP systems

Jobs, inspections, stock, purchasing and scheduling, all connected, on any device.

06

Quotations, invoicing and payments

Quotation, approval, invoice, payment, receipt. Each step leads straight to the next.

07

HR, attendance and payroll

Leave, attendance, pay and policies, without the spreadsheets.

08

Automations and integrations

Reports that send themselves. Data that moves between systems without anyone copying it.

09

Dashboards and reports

Clear dashboards for owners and managers, updated as the work happens.

SERVICES

What you can hire us for.

Custom software

Web, mobile and business systems designed around the way you work.

System implementation

We set up, migrate and roll out business systems, and train your team to use them.

Integrations

We connect the tools you already use, so information flows without retyping.

AI and automation

Chatbots, AI agents and automatic workflows that take routine work off your team.

Cloud

Secure, dependable hosting, with backups and monitoring looked after for you.

Cybersecurity

Secure sign-in, careful access control and protection for your data, built in from the start.

IT consulting

Clear, independent advice on what to build, what to buy and what to leave alone.

Websites

Fast, modern websites that are easy for your team to update.

HOW WE DELIVER

Ready, connected or custom.

01

Ready to use

Start with something that already works. We set it up for your team and you're running in days.

02

Connected

Keep the tools you like. We connect them to each other, and to what's missing.

03

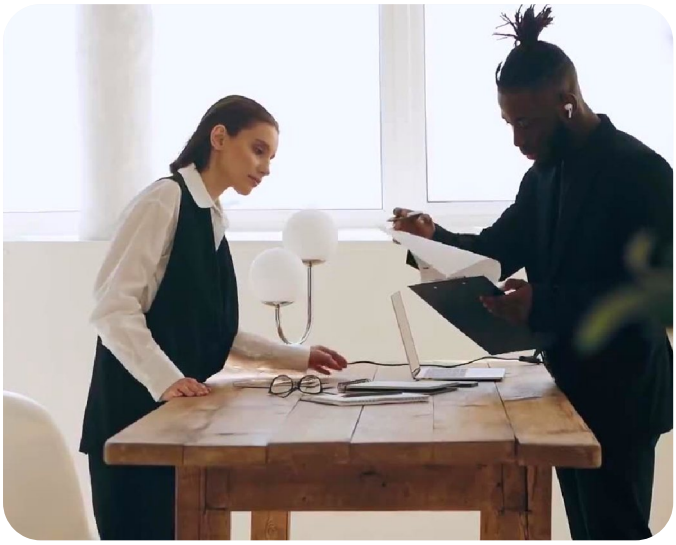
Custom

When nothing fits, we design and build it around the way you work.

Most clients use a mix of all three.

HOW WE WORK

From first idea to a system you rely on.



01 **Understand**

We listen first: your goals, your people and your limits. You get a clear scope and an honest plan.

02 **Design**

Screens, flows and structure, agreed with you before we build.

03 **Build**

Short cycles you can see and try, with quality and security checked at every step.

04 **Launch and support**

We go live carefully, watch closely, and keep improving.

OUR PEOPLE

One team for the whole job.

A growing team in Sri Lanka, working in our clients' hours.

The people who design a system are the people who build and support it. You meet the team you will work with at the start of every project, and you keep the same people through to support.

- Software engineers
- Designers
- Business analysts
- Project leads
- Quality and security
- Support

CLIENTS

Trusted by businesses that can't afford downtime.

YACHTS 1 · VICTORY STAAR REAL ESTATE · Mondus · mawaride GROUP OF COMPANIES · Qəmər Al Səfə Travel & Tourism LLC · MG INVESTMENTS GROUP · TWG · Travel Wise Global

These are some of the businesses we work with. There are more we don't name: we keep our clients' details private, and we don't publish figures about their businesses.

WHY YOU CAN RELY ON US

Reliability is built in, not added on.

Tested before it's live

Every change is tested before your team sees it.

Backed up every day

We set up daily backups, so your data can be restored if anything goes wrong.

Every action recorded

Who did what, and when, is kept in a record that can't be edited.

Secure sign-in

One secure login, with access limited to what each person needs.

Secrets stay secret

Passwords and keys are encrypted and never shared in chat or email.

Help inside the system

Answers and support live where your team works, not in a separate manual.

WHERE WE WORK

Built in Sri Lanka. Delivered everywhere.

Our team is based in Sri Lanka and works with businesses around the world. Wherever you are, we can work in your hours and your language of business.
